Workshop evaluation

Knowledge before and after the workshop

1. It was very professional and practical, and it was very different from other courses I had attended so far. I am grateful to the very experienced and professional professors who conducted the course in a very practical and practical way.

2. Very Good

3. Excellent

4. Very good and perfect

5. Excellent

6. Perfect

7. great

8. My knowledge increased

At what level was the promotion of knowledge and awareness about international trade?

1 .I can say that my level of knowledge and awareness regarding international trade changed and improved significantly by participating in this course.

2 .Excellent

3 .great level

4. Changing the way of working and choosing a new strategy

5. perfect

6.Good

Which items do you think it would be useful not to do in the next workshop?

1. Everything was perfect.
2. Although the workshop was held in an active manner, due to the excessive comments of a number of participants, the second day was held more slowly than the first day. Perhaps it is better for the participants to comment less so that all topics are taught in full and we can use more of the professors' practical and scientific experiences.
3. Not holding parallel meetings that will take class time
4. Compact workshop in 2 days
5. Everything was good.

What were the most important strengths of the workshop?

1. Teamwork
2. Respected professors and their type of presentation, as well as the very professional cooperation and overlap of these two nobles in better presentation of materials and topics.
3. The professors have long and practical experience in business and have mastered business knowledge. Mastery and experience of professors
4. Joining the tools online view
5. High experience of professors in the field of export
6. Complete mastery of the subject
